Spoofing and Phishing: Several Episcopal Churches in Arlington, including St. Michael's, have had recent e-mail phishing and spoofing attacks. Phishing is where a seemingly familiar person or organization solicits money or information via e-mail or on the internet. Spoofing occurs when someone uses what is apparently a familiar e-mail name to contact you. Please be aware that these attacks have occurred and be cautious when you get an e-mail from someone that appears familiar but the content of the message doesn't seem quite right. St. Michael's will not ask you to provide credit card numbers or other bank information via e-mail. If you think an e-mail you have received from someone on the St. Michael's staff doesn't seem right please feel free to call the office to verify the message.
